Whig and Courier.

John M. Sayward.—Editor

THURSDAY, OCTOBER 25, 1849.

The Jeffersonian is trying to make it appear that the Whig party is in favor of the extension of slavery and that the 'Democratic party is the anti-slavery party It entirely fails in both these points, since it would be very easy indeed to make out the opposite of both the points by similar proofs to those introduced by the Jeffersonian

The entire history of the ascendency of the Loco party in this country is a history of the triumph of the slave interest—of the yielding of the leaders of the party in the free States to the demands of the leaders in the slave States—from first to last, its presidents, with a single exception have been slave-holders—and that exception was made under circumstances wofully humiliating to the cause of freedom and demanded of him during the first hour of his official term the utterance of a pledge to slavery

It was mainly through the infusion of a little of the anti slavery feeling of the Whig party into the ranks of the loco party which overthrew that party after it had persuaded itself of its invincibility by keeping itself in close alliance with the slave interest

Even now the central organ of the loco party at Washington and a large majority of the press of that party throughout the country are repudiating this very doctrine of the Jefferson ian, and laboring to establish the contrary

The points of controversy which the Jeffersonian attempts to fix upon the Whig party and the loco party are those existing be ween the two sect ons of its own party at the north—There is where the controversy legitimately belongs, and there the Jeffersonian will find itself rep esenting but a mere fragment even in the matter of opinion and still less practically, since even its conductor if we may credit his own statements would not hesitate to vote for candidates of the party who are slave holders and in favor of slavery extension if nominated by its party

Such anti slavery—its mere sentiment, is worth but little, and yet this is the sort with which only a portion of the loco party is affected and that portion is represented by the Jeffersonian and as small as it is that even its neighbor the Democrat, laboring for the loco party, represents it as a faction

The successes of the loco party since the election of Gen Taylor to the Presidency, are not the result of any great central doctrines which it has avowed, or of any leading measures which it has suggested, or any well digested system of organization which it has adopted, but the result of its amalgamations, sacrifices and accommodations of various sorts, with every stripe and form of opposition Those successes cannot be relied upon, since all the varied elements which have effected them can never be brought to act in unison and harmony There is not now any real, effective, consistent and reliable organization of the loco party

There is no unison, but the party is stranded and broken and when appealed to for active measures in reference to the next Presidential campaign, all the elements must be sought in chaos Indeed they are doomed, at best, to have two candidates in the field in all the free States, and the friends of each denouncing each other in the fashion and spirit of a regular family quarrel—the faint beginnings and but the beginnings of this, are already illustrated in the two loco papers in this city the Democrat and the Jeffersonian

The whole strength of the opposition to Gen Taylor of every character, has already shown itself to the best possible advantage The worst has been achieved against the administration upon the worst of misrepresentations and apprehensions, and before it had time to develop its practical principles The progress of the administration will quiet all the erroneous apprehensions, correct the gross misrepresentations and win for itself many new friends from among those who have been active against it

The Whig party has now just since organization which may safely be invoked to act in unison, and for whatever of dissatisfaction there is among its members arises from no variance in principle, and may be adjusted and reconciled

The measures of the Whig party as they develope themselves will be such as the country will approve and sanction, although for a time a factious opposition may prevent their practical development Those measures and the reasons for them, and the arguments by which they are sustained will in a few weeks come before the whole country to be examined and decided by the great inquest of the people We expect much of a convincing character to issue from Gen Taylor and the members of his Cabinet, and after the confirmation of the appointments, we may reasonably look for a full shaping and development of his administration throughout the country.

The administration will gain strength day by day while its opponents will become and more weakened There is but a brief period in which the Whigs can be misrepresented to any advantage and that time the Jeffersonian is disposed to improve

Trustees of the Sons of Temperance.

The National Division of the Sons of Temperance have made arrangements for the publications of a series of Tracts on Temperance designed for general circulation throughout the United States The first number, prepared by Horace Greeley on Alcoholic Liquors, their essential nature and necessary effect on the human constitution has already been issued, and the Grand Division of the State have ordered eight thousand copies for distribution in Maine, and will probably order a large number of the entire series

These tracts embody the great argument in favor of temperance and we trust that their influence will be for the great good of the whole community

The bark Eureka built at Cleaveland, Ohio for the California trade was found after starting on her voyage to be too large to pass through one of the locks the Welland canal.

The two house breakers who broke into the dwelling of Hon Daniel Webster were sentenced at Concord on Friday to eight years service in the State Prison

☞ The Seventh Triennial Festival of the Bangor Mechanics Association will be held at their Hall on this evening at seven o'clock—The following is the order of exercises

ANTHEM
PRAYER
ORIGINAL ODE.
ADDRESS,
by D H Stevens, Esq
HYMN,
written for the occasion
BENEDICTION

It has been usual for the association on these occasions after attending to services like the above, to partake of a public dinner with all its usual accompaniments They intended to have done so this year in the summer season, but the appearance of the cholera prevented it, until at length it has been thought best to forego all but the public services at the Hall Members with their families and friends are invited to attend.

Concert on this Evening.

The Penobscot Musical Association which has been in session here since Tuesday will give a grand concert at Hammond st Church on this evening under the direction of B F Baker, Esq of Boston, assisted by several accomplished performers

It is a long time since our people have been favored with a concert, and they are probably now prepared to patronize, appreciate and enjoy good music.

Mr Baker was formerly a citizen of Bangor as was also one of its assistants from Boston, Miss Elwell, and their friends here should feel an interest in giving them a warm welcome

The Musical Association who offer this concert to the public cannot but desire to know that their efforts to improve the musical taste of the community meet with the public approbation, and that in a way which will enable them to put into these efforts without too heavy a personal expense.

The Festival of the Mechanics Association which occurs on this evening will necessarily keep many from the concert and there will need to be therefore the greater effort on the part of the friends of this musical enterprize to give them encouragement by attendance upon the Concert

☞ Our readers will notice in another column the advertisement of Mr Henry M Kent stating that he has purchased the retail stock of Dry Goods of Thomas A White & Co and has added thereto a complete assortment, and is ready to serve the public with any article in his line of trade Mr Kent is well and favorably known in our community and his new effort in the Dry Goods line will prove how well our people appreciate his honest endeavors to conduct a fair and honorable business

☞ A nice little bit of alarm was raised on Tuesday evening on account of a noise like the crying of an infant, supposed to issue from the office of Dr Bunting Some of the occupants of Granite Block were so much interested in the matter that they obtained the services of the City Marshal, who upon a thorough investigation it was found that the noise proceeded from a kitten in the cellar that had got caught by a swinging door

The Newburyport Herald mentions the receipt of a letter from G W Lake of Gloucester, dated at San Francisco, in which he says, that he and Capt Bradbury, of Newburyport, had been at work, that day, pouring shovels by which they earned $36 in six hours The miners use a round pointed shovel, Capt Bradbury has a machine by which he can cut them at the rate of a dozen in an hour, and charges $6 a dozen

☞ Major General Scott, on the 3d inst, took a trip over the New York and Erie Rail road, and was met and cheered by crowds of spectators at many of the stations At Binghampton, the reception was one of the most enthusiastic ever witnessed at that place Artillery salutes were fired, the bells rung, and tar barrels ignited the scene on the arrival of the train, and on the General's lighting from the cars the air rang with continuous cheering

☞ John F Phelps, Esq, who was recently elected President of the New York and Erie Rail road Company was a journeyman printer but a few years since By a close application and a sprinkling of good luck, he has rapidly advanced to the possession of a competency, and an honorable station at the head of the first Rail road Company in America, covering a capital of $2,000,000

Among other prognostications of a hard winter the coming season it is said the squirrels are migrating south in vast numbers, which is looked upon as an infallible indication of more severe weather than ordinary, by those who have paid attention to the movements of these animals

☞ We would direct the attention of our readers to the advertisement, in another column, of the new edition of Rev M Mansfield's Singing book, the American Vocalist—The first edition was received with much favor by the public, and the enlargement and improvement of the present edition will make it a favorite with many others, and pretty much a standard singing book with the numerous sect to which the author ministers

☞ The remains of the late General Worth have been brought from Texas to New Orleans Those of the late Col Duncan will be forthwith brought from Mobile, when the two lamented officers—so often partners in victory, but at last until death, will be conveyed to their final resting place in New York according to resolutions passed at a meeting of the City Council

Mr Winchester Willis, son of Rev. Lemuel Willis a Universalist clergyman formerly of Cambridgeport—who enlisted in the Mexican war, has been to the California mines, and having secured some $30,000 to $40,000 recently made his father a present of $7000, and sent for a brother to join him, who started immediately

☞ Capt Coutret and crew of the bark Rio of Boston, abandoned at sea, arrived at Boston on Sunday last on board bark Georgia One of the crew had died, and many of the survivors were partially insane, having been on the wreck about nine days

☞ There has been some moist weather recently contributing to the rise of the streams and enabling mills to do a fine business

☞ Thanks to Capt Cates of Bryant and Co's Express for papers received on yesterday in advance of the mail

The Other Side.

The Vineyard Gazette publishes the following discouraging account from California

Capt Downs of schooner Rialto of Holmes Hole arrived at that place, direct from California on the 17th inst Capt D returns on account of ill health He had been troubled with fever and ague, and an attack of dysentary He gives a very discouraging account of affairs at the gold diggings and as he was at the mines himself and engaged in digging, his statements can be of course relied upon He states, as we learn from a gentleman who conversed with him, that he was at the mines a week, during which time he got little or no gold—that only one person out of twenty on an average, did well—while the balance did worse than they could at home

The Rialto's company had left the mines, by Capt D's advice, the yield of gold being so very small, and the hardships so very great The schooner was freighting, which was all the business that paid well. Many persons had been ruined by speculation One company engaged in a Refectory had failed, owing an immense amount of money, owing to the fall in the prices of everything

Capt D says that he, with others, at the mines, had often laughed heartily over the gold stories which were published in the New York papers The Captain advises all persons of family who can do a moderate business, to remain at home

Illness of Father Mathew.

We regret to learn from the Worcester Spy that Father Mathew was unable to meet the citizens of that place on Saturday evening last, as announced, his health having been much impaired by his labors

He was laboring under a partial paralysis of one side of his body and his tongue He informed the Committee that he should be able to make no public address while in the city, but that he should attend service at the Catholic Church, on Sabbath morning, and, in the afternoon would administer the pledge at the same place, that he would also be at the City Hall at 10 o'clock this morning (Monday)

We learn from the Spy of this morning that Father Mathew has so far recovered as to be able to resume his labors—Boston Jour

From Santa Fe.

INDEPENDENCE, Oct 8, 1849

This morning we have another arrival from the plains Messrs Hall, Woods, Harrold, Harrison, and Owens (son of Col Samuel Owens,) reached here from Santa Fe They left that place on the 11th of September All the early trains, going out, reached there in safety Grass and water were found in great abundance The Indian disturbances were somewhat allayed, but still prospects for a permanent cessation of hostilities were not too flattering.—[Cor St Louis Repub

Intelligence of the suspension of M Poussin, had but just reached Paris at the last accounts, consequently the comments of the Paris press will not be received until the arrival of the next steamer The British press, generally express the opinion that nothing serious will grow out of the affair, and sustain the course taken by our government

True good nature, that which alone deserves the name, is not a holiday ornament, but an every day habit It does not consist in servile complaisance or dishonest flattery, or affected sympathy, or unqualified assent, or unwarrantable compliance, or eternal smiles Before it can be allowed to rank with the virtues, it must be wrought up from a humor into a principle, from an occasional disposition into a habit

The mind presides over its own destiny and can make of itself a heaven or a hell It is wonderful to contemplate, and is the greatest wonder to itself, and though full of pain, who would lose this intellectual being, and have these thoughts that span the creation and grasp eternity, be extinguished like a lamp when it is put out in darkness?

Endeavor to acquire a temper of universal candor and benevolence, and learn neither to despise or condemn any person on account of their particular modes of faith and worship, or membership, always, that goodness is confined to no party—that there are wise and worthy men among all sects of Christians, and to his own master every one must stand or fall

If we would enjoy ourselves we must take the world as it is, mix up a thousand spots of sunshine—a cloud here and there—a bright sky—a storm to day, calm to morrow—the chill piercing winds of autumn, the bland, reviving air of summer

Some delusions are of such a character that time only can dissipate them When the minds of men are excited to a certain pitch, argument is useless It is then our place to wait till they recover their former self possession

☞ The five steamboats burned at New Orleans, on the 7th inst, with their contents, were valued at a quarter of a million of dollars Two deck hands of one boat fell overboard and were drowned

In Rusk, Texas, Rufus Chandler, formerly of Freeport, Me was assassinated September 22 by a man named Hogg, between whom and Chandler there was a quarrel growing out of successes of Mr Chandler at the bar, both being lawyers

The Pacific railway convention, in session at St Louis, adjourned on Thursday, having previously adopted a resolution to reassemble in Philadelphia on the 1st of April next

☞ The city of Worcester was lighted with gas for the first time on Wednesday night—They commenced with seven or eight hundred burners, but will probably very soon double that number

They who would abandon a friend for one error, know little of human character, and prove that their hearts are as cold as their judgments are weak

☞ The Whig candidate for Governor, in Wisconsin, is Gen Hiram King, a nephew of Gov King, of Bath; and the candidate for Lieutenant Governor, is Timothy O Howe, late of Readfield, Kennebec county

☞ On Saturday last, 370 Portuguese refugees proceeded on board the steamer Isaac Newton, from New York, for Albany, on their way to Illinois, where a settlement has been provided for them

☞ Lord Brougham was 71 years of age last Wednesday week

ON THE DEATH OF A CHILD.

BY MISS ALICE CAREY.

Vain it were to say that night
Folds away the morrow—
O you cannot see the light
Through this aching sorrow

Beauty from your lives is borne,
Brother, sister, weeping;
But the cherub boy you mourn
Is not dead, but sleeping

Folded are the dimpled arms
From your soft caressing,
Yet our God in darker forms
Sendeth down his blessing

Death, a breeze from heaven astray,
Still, with wing the fleetest,
Drifts the lovely flowers away
Where hope clings the sweetest

Strong to change, but not destroy,
While the pulsy winglets
Veil the forehead of the boy,
Bright with golden ringlets

Faith, though dumb at the great loss
Which hath made you weepers,
Closer clasps the Cross
Down among the sleepers

And though wild your anguish be,
And your hearts all broken,
'Suffer them to come to me,
Hath been sweetly spoken

Mt Healthy Aug 14 1849

The Steamship Hermann from New York for Liverpool was passed 21st inst in lat 40 lon 69

The Telegraph Controversy.

In the suit pending in the U S Circuit Court now in session at Frankfort between Morse and others, against O Reilly a motion was made by the Counsel of the latter for a continuance of the case to another term. This motion was overruled and the case is now undergoing an investigation.

☞ A letter from California, published in one of the newspapers, says that the son of ex Governor Davis drinks a day about the streets of San Francisco and is making money

☞ Pope Pius has proscribed five works of religious character, which are now in the hands of all Italians, and which relate to the Catholic religion

☞ Official information has been received at the Navy Department of the death of Capt. John Gwinn, of the frigate Constitution, at Palermo Sept 4th

☞ A "Kentucky child" has lately arrived at St Louis, from Davis Co, Ky aged nearly fourteen years, and weighing 500 pounds standing six feet high, and measuring three feet and a half round the thigh

☞ On Monday last the dwelling house of Mr Wm R Field, in Brunswick was consumed by fire

The trait gate of religion is wide enough to admit any sinner, but too narrow for the admission of any sins —W Howell

True modesty blushes for everything that is criminal False modesty is ashamed of every thing unfashionable

Dry Goods Emporium.

Buckley at his spacious and elegant establishment, No 1 Main Street, has just received an extensive assortment of rich and fashionable goods, which he exchanges for cash a extremely low prices His stock being new and cheap he desires to advertise it and invite visits from, and the inspection of, purchasers

oct 23 3w [Mercury of Friday

Wistar's Balsam of Wild Cherry.

What time establishes and consecrates, what experience adopts and confirms, what all men in all places unite in saying is good and valuable, is so, no doubt—and such is the character of this spirit, fixes in so lofty its roots so deep and so strong, that time cannot destroy it. The success which has attended this medicine by several years past, has overcome the prejudices of all respectable men and has quickly taken a stand among the first class of discoveries and blessings of the age, and when restored to in season eradicates the disease for which it is recommended

[From the Boston Post]

Dr S W Fowle, 138 Washington Street, has an article entitled as above, which we believe to be a very appropriate remedy discovered for the cure of colds and other consumptive complaints Having tested this medicine, we can speak with confidence, as to its salutary effects in removing colds and other complaints incident to this season of the year.

A New Singing Book!

THE
AMERICAN VOCALIST,

BY REV D H MANSFIELD

PUBLISHED a few months since has had a most rapid sale The Revised Edition is enlarged by the addition of 171 choice tunes and is now contains more than any other collection ever divided into three parts all of which are embraced in one volume and is designed for the church, the vestry and the parlor

PART I consists of Church Music, old and new, and contains the most valuable productions of Billings, Holden Maxim Read Holyoke, Edson Morgan Pool Belknap West, Wood, Swan &c and eminent American Authors now living—Mason, Webb Woodbury, White Kingsley &c &c &c—as well as of the most distinguished European composers as Handel Haydn Mozart, Beethoven Pleyel Marzsnghi, Croft, Greene, Arne, Mallerove, Kent, Swaffield, Costello Williams Randall Weber Neukomm Cherubini Giardini, Ralfger, Venua Bucginuller Mazzinghi Swedhal Wartensee, De Pleau &c, &c in all 230 church Tunes adapted to every variety of metre found in the Hymn Book besides 19 all the rich tunes denominations in the country besides a large number of Anthems and selects pieces for special occasions

PARTS II AND III contain all that is valuable of the Vestry Music now in existence consisting of the most popular Rural Melodies and the most admired English, Scottish Irish Spanish and Italian songs arranged for four voices expressly for this work, and accompanied with appropriate sacred poetry embracing in a single volume more than 600 musical pieces every section of public and social worship and containing nearly all the gems of music for Revivals ever known in the first 500 years and a large number of the most before published which will render it a standard in every department of sacred music

The poetry of the work would fill a large volume and the whole being set to a variety of tunes will contain the whole system of Elementary Instruction as is partly adopted in Singing Schools Musical Societies and Choirs

MR MANSFIELD has been a teacher of Vocal Music for eighteen years He travels extensively in all the northern and Middle States and has spared no pains or expense to make his Book unequalled with the kind of music mainly in popular use in this country No alteration will be made in future editions

Teachers and others are invited to call and examine the Book Published by

A New Singing Book!

THE

AMERICAN VOCALIST,

BY REV. D. H. MANSFIELD.

PUBLISHED a few months since, has had a most rapid sale. The Revised Edition is enlarged by the addition of [illegible] pages, and it now contains more than any other collection. It is divided into three parts all of which are embraced in one volume, and is designed for the church, the vestry, and the parlor.

PART I. consists of Church Music, old and new, and contains the most valuable productions of Billings, Holden, Maxim, Read, Holyoke Edson, Morgan, Pool, Belknap, West, Wood, Swan, &c., and eminent American Authors now living—Mason, Webb, Woodbury, White, Knowlton, &c., &c.—as well as of the most distinguished European composers, as Handel, Haydn Mozart, Beethoven, Pleyel, Mazzinghi, Croft, Greene, Arne, Rodgers, Kent, Swaffield, Costello, Williams, Madgrove, Randall, Weber, Neukomm, Cherubini, Giardini, Radiger, Venua, Bergmuller, Mazas, Wiesenthal, Wartensee, De Piano, &c., &c.—all 330 Church Tunes, adapted to every variety of metre found in the Hymn Books, used by all the religious denominations in the country, besides a large number of Anthems and select pieces for special occasions.

PARTS II. AND III. contain all that is valuable of the Vestry Music now in existence, consisting of the most popular Revival Melodies, and the most admired English, Scottish, Irish, Spanish, and Italian songs, arranged for four voices, expressly for this work, and accompanied with appropriate sacred poetry, embracing in a single volume more than 600 tunes adapted to every occasion of public and social worship and containing nearly all the gems of music that have been composed within the last 300 years, and a large number of tunes never before published, the whole designed as a standard in every department of sacred Harmony.

The poetry alone would fill a large volume, a whole hymn belonging to a tune instead of using verses. It contains also a plain and concise System of Elementary Instruction, and is particularly adapted to Singing Schools, Musical Societies, and Choirs.

MR. MANSFIELD has been a teacher of Vocal Music for eighteen years; has travelled extensively in all the Northern and Middle States, and has spared no pains or expense to make himself acquainted with the kind of music demanded for popular use in this country. No alteration will be made in future editions.

Teachers and others are invited to call and examine the Book. Published by WM. J. REYNOLDS & CO. Washburn, J. S. Caldwell, Hilliard, Wm. Merriam, Camden, J. Wakefield, E. F. Thomaston, &c. oct 23 d&6w5w&weow2w

PUBLIC THANKS.

SUBSIDENCE OF THE CHOLERA.

A TRUE FISH STORY!

MANY and right hearty thanks are tendered to the public for the generous encouragement they have given to the efforts of the subscriber in keeping the market supplied with fresh fish with regularity and constancy. A continuance of their favors will secure still further successes in this enterprize.

The Cholera has subsided and the people very naturally desire a safe return to the luxury of prime fresh Fish direct from the deep blue sea. This desire so reasonable and innocent, may now be gratified; and to this end arrangements have been made for a supply of fresh Fish to the good and enterprizing people of Bangor. The well known establishment in the basement of Kenduskeag Market has been re-opened and will now be put through, thick or thin, without stint or delay.

All lovers of the inhabitants of the briny ocean will find special attention paid to their wan and wishes, and Fish will be furnished them as fresh and sweet as the breath of new mown hay, and as delicious as an Epicure's ideal.

CODFISH,
SALMON,
HALIBUT,
MACKEREL,
HADDOCK,
SMELTS,
SHAD,
HERRING,
&C., &C.,

may each and all be found in their season.

The orders of the public are respectfully invited and no efforts to please will be omitted.

Respectfully submitted, THOMAS BICKFORD.

Bangor, Oct. 17, 1849.

A MAMMOTH STOCK OF FALL DRY GOODS.

T. G. STICKNEY having just returned from New York and Boston, where he has passed the last ten days in making his Fall selections of NEW GOODS, is now prepared to exhibit to cash customers, one of the most extensive and desirable Stocks that was ever opened on the Penobscot. I have just opened,—

About 200 SHAWLS, embracing Rich Cashmere Long Shawls, Drab and high col'd Bay State, and other grades, from 2,25 to 12,00,—Blk Silk, and all the various kinds of WOOL Square Shawls.

CLOAK GOODS, such as THIBETS, Lyoneses, Indianas, Germantan Cloths, Alpaccas, &c. &c., which are offered as cheap as can be found in New York or Boston.

FOR RENT.

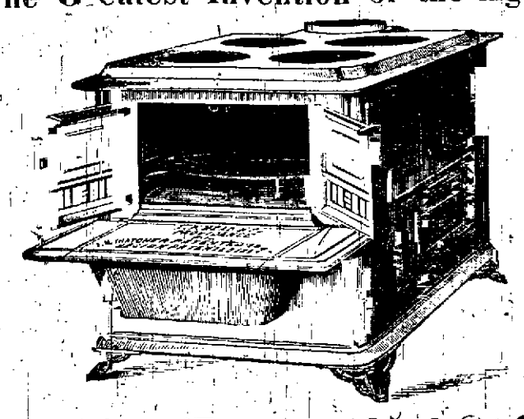
87 1-2 FEET of WHARF, in front of Emerson's Block, on Broad Street. Oct 12, 1849. W. A. BLAKE.

MANSFIELD'S

Hot Blast Air Tight

COOKING STOVE,

The Greatest Invention of the Age.



A New Pattern for 1849.

AMONG almost of competitors THIS STOVE for its superior advantages, took the first premium at the American institute, city of New York, at the Hartford County Fair Connecticut, at the Worcester Co. Fair, Massachusetts; and Franklin Institute, Philadelphia.

One very important improvement in this Stove is the patent *Broiling Chamber*, (see cut) by which broiling is done to perfection in from four to six minutes, retaining its juices, and giving steaks the same fine flavor and pleasant twang of the best charcoal broil (in being equally well adapted to toasting, roasting or frying) with the draft to the fire each passing through this broiling chamber, and effectually carrying off the scent which usually arises from Broiling. The broiling department is always ready, it being operated by the same fire required for other purposes, and not interfering with any other part of the cooking.

The fires being the entire width, and passing direct by around the oven, applies it to heat to all parts alike. The oven for Baking is not equalled by any Stove in use. *Warranted as above for thirty days.*

PATENTS

American and Foreign Office,

AGENCY FOR BUSINESS

With U S. Patent Office

WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37

Having relinquished the Agency or the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, *where by a Patent may be procured about as cheap as earlier* he continues to forward them free of expense—to prepare Caveats Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice in legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all the perplexing troubles in obtaining the right. They can have the advantage of *verbally* explaining their inventions and of consulting in respect to them, *matters in grave & of paramount importance in order to obtain correct foreign patents and the* The experience of *a six year* practice, an extensive collection of rare works and the most official subjects the Patent Laws and Patents of different countries collected at much expense during the time in this office has been established, together with accounts here kept of inventions patented in Washington, enable the subscriber to afford to inventors the most favorable arrangements to Discreet Counsel promising Patents assistance and information which no other practitioner can afford of a similar character

R H EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849.—

During the time I acted as the Office of Commissioner of Patents R H EDDY, Esq., of Boston did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no fear in assuring Inventors that they cannot employ a person more competent and trustworthy, or one more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office [DISTRICT]

Late Commissioner of Patents

A LARGE STOCK of the different sizes of

Dr Townsend's

SARSAPARILLA.

THE GREAT EXTRACT

FOR EXTRAORDINARY MEDICINE IN THE WORLD

Is put up in Quart Bottles—it is six times better as a warranted super or to any solid extract in the market, perhaps, or debilitating the Patient

purity and superiority of his Sarsaparilla [illegible] Physicians and Druggists in the City of New York, one of the assistants in the Lunatic Asylum, Blackwell's Island, in the quantity of [illegible] following letter:

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for many years with the Rheumatism, consider that of the worst kind I could not eat, sleep or walk I had lost almost the use of my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one hundred dollars worth of good I am so much better—indeed, I am quite well You are at liberty to use this for the benefit of the afflicted Yours respectfully, JAMES CUMMINGS.

FITS! FITS FITS!

Dr Townsend has never tested his Sarsaparilla in cases of Fits, of course never recommended it and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County.

Pendham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last although we could find no remedy to cure the convulsions for upon like for a cure, we resolved by the advice of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had none of the Fits, to our great pleasure and that more so from the fact of becoming tired of giving what we feel grateful Yours respect fully JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and specific cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Incorrect or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent causes, produced by irregularity, illness, or accident Nothing can be more surprising than its restorative effects on the human frame. Persons will awaken and [illegible] from taking it, after a few doses, with a sudden and lasting influence It will come to you and feel stronger its influence It will absolutely counteract the nervousness of the female which is the great cause of Barrenness It will not be expected of us, in cases of confirmed consumption to palliate consumptions of cures positively, but we can say that they will, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This Sarsaparilla has been expressly prepared for the use of females who are approaching that critical period, of "*the turn of life*," should they decide to take it, as it is a sure preventative for any of the many complaints to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable to those who are approaching womanhood as it acts directly to assist nature in her quickening the blood and vivifying the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It arrests the whole system, renews permanently the natural energies—by restoring the nervous energies of the body, and thus building it up to produce such consequences—which is the cause of most medicines taken for Female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most efficacious medicine for purifying the system, and relieving the nervous and [illegible] attendant upon childbirth—in Costiveness, Cramps Sweetening of the Feet, Despondency, Heartburn, Vomiting, Sick Headache, Pain in the Head, Palsy, Pains, Hemorrhages, and in regulating the secretions, and equalizing the circulation it has no equal The great beauty of this medicine is it is always safe, and the most delicate can use it most successfully, very few cases require any other medicine—nature only requires to be assisted Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which in fact nature has ordained by disease or powder, or the skin is flamed by the alkalies used in soaps, beautifiers its own production in the human face divine, as well as in the garden of such are delicately tinted and variegated the hues A free, active and healthy circulation of the blood is the cleansing of the pure, rich blood is the exemption, is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flushes of loveliness that all admire but none can describe This beauty is the unfailing result of using Townsend's Sarsaparilla If there is health and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow, and these parts not active blood, she has a vivid bloom on the cheeks, and a brilliancy to their eyes, that is fascinating

This is the season why the southern and especially the Spanish ladies are so much admired Ladies in the north we take for granted the exercise or are confined to the cool rooms, or have spoiled their complexion by the application of deleterious mixtures, If they wish to get a clearness of step, buoyant spirits, sparkling eyes, a beautiful complexion, they should use Dr Townsend's Sarsaparilla Thousands who have tried it pronounce them satisfied are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

These that imitate Dr Townsend's Sarsaparilla have basely called their stuff a *great remedy for Fits, &c* and have copied our bills and circulars with certificates to the complaints of women word for word, the more who put up such a base article to cheat the unwary, deserve the severest punishment to which females are subject at this time of life This period *may be delayed for several years by using the medicine* Nor is it less valuable to those who are approaching womanhood as it acts directly to assist nature in quickening the blood and vivifying the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject
